

PRODUCT DATA SHEET

PROKOSCH Series 3 Injectors
for Pneumatic Conveying

PROKOSCH injectors are suitable for pneumatic conveying, for accelerating the conveying of powdered and granulated materials. Installation by means of a thread directly in the conveying line or optionally by means of flanges or a combination of flange and threaded connection. The conveying air is introduced by means of a connection pipe pointing upwards or towards the opposite side to the medium.

Specifications

Max. operating pressure	10 Bar
Temperature range	-20...80 °C
Flange connections, models 300 and 310	DIN 1092-1
TW-flange connections, models 320 and 330	DIN 28460
Threaded pipe end, models 310, 330 and 360	DIN 259

Materials	GS	GV	VV
Housing	Cast iron	Cast iron	Stainless
Flanges	Steel	Steel	Stainless
Nozzle	Steel	Stainless	Stainless
Gasket	NBR	NBR	PTFE
